

Are 32 School Districts in Santa Clara County Too Many?

Santa Clara County is host to 32 different districts of varying sizes. Some are K-12 unified districts while others a combination of K-8 elementary school districts and 9-12 high school districts. Some districts are the size of one school. A prior grand jury report has recommended consolidating districts as a cost saving measure.

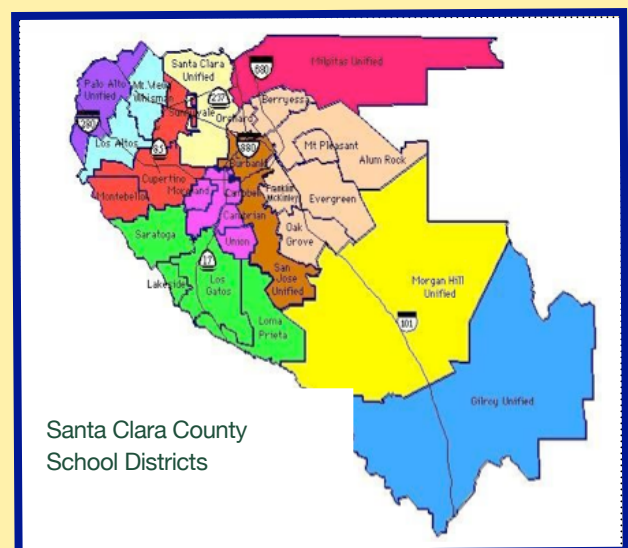

But will consolidation save money? And what is the ideal size of a district? Who determines what is best for the communities involved? You will not want to miss this forum taking on this controversial topic. A light lunch will be provided.
